

LABC

Assured

ALL-IN-ONE BUILDING REGULATIONS COMPLIANCE AND WARRANTY COVER

**For manufacturers and suppliers
of construction products and systems**

WHO ARE WE?

Local Authority Building Control (LABC) represents all local authority building control teams in England and Wales. LABC Warranty is one of the UK's leading providers of new home warranties.

Working in partnership, LABC Assured from LABC and LABC Warranty offers building regulation compliance and structural warranty cover for your product or system in a single, convenient process.

BENEFITS OF BEING LABC ASSURED

- Specifiers, designers and builders will be confident about the performance and suitability of your product or system
- You will have Building Control compliance in every Local Authority in mainland UK (Building Standards compliance in Scotland)
- Your product or system will be covered by LABC Warranty in England and Wales*
- Use the LABC Assured logo as a recognisable symbol of ready-made compliance and performance
- Listing your product or system on the LABC website

* Your LABC Assured certificate will make clear any additional conditions that may apply

HOW DOES IT WORK?

Complete the LABC Assured application form providing details of your system and testing

The LABC Technical Department will conduct an initial assessment to determine suitability

A registration proposal is issued covering assessments against building regulations and structural warranty cover in England and Wales and building standards in Scotland (not warranty)

When you are ready to proceed, LABC will appoint a research authority to guide you through the assessment process

Once the main assessment is complete, each registration is peer reviewed by LABC's national technical panel to ensure acceptability across all local authorities

Your system is then added to the LABC Assured library and marketed to LABC and LABC Warranty's databases of developers, builders and specifiers
